CancerCare Manitoba is the provincial agency responsible for cancer control and blood disorders, including prevention, early detection, care and treatment, research, palliation and education throughout Manitoba. We invite applications for the position of:

Radiation Oncologist
CancerCare Manitoba and University of Manitoba
Permanent Full-time
Competition 241-15

CancerCare Manitoba (CCMB) provides comprehensive oncology services for the province of Manitoba and adjacent areas of Northwestern Ontario and Nunavut. Approximately 3500 new patients are seen annually by the Radiation Oncology Program.

We are seeking a full time Academic Radiation Oncologist to work within a multi-disciplinary, disease site group model of care. The Department of Radiation Oncology and CCMB Radiation Oncology Program reside in a state-of-the-art clinical outpatient and cancer research facility in Winnipeg on the Bio-Medical campus of the University of Manitoba. Equipment includes 7 Varian linear accelerators, dedicated high dose-rate and prostate brachytherapy suites, 2 simulators and a new orthovoltage unit. RapidArc™ and Stereotactic Ablative Body Radiotherapy techniques are in use, with the latter being further developed in partnership with the Winnipeg Regional Health Authority's (WRHA) Surgery Program with recent installation of EDGE machine. A Gamma Knife Perfexion™ is located in and managed jointly with the adjacent host hospital, the Health Sciences Centre. PET-CT is available, with a cyclotron on site. A dedicated 6 bed inpatient unit is also located in the host hospital.

The Western Manitoba Cancer Centre, located in Brandon MB, is jointly managed by CCMB and the Prairie Mountain Health Authority and has one matched Varian linear accelerator. Most chemotherapy services are offered there. One radiation oncologist is located permanently at this site. The successful candidate will be expected to provide coverage at that site in rotation with other Winnipeg based staff members as assigned.

Radiation Oncologists hold privileges at Winnipeg teaching hospitals through the Oncology Program of the WRHA and are appointed to the University of Manitoba, Faculty of Medicine. Together with the University of Manitoba, CCMB manages a successful Royal College accredited Postgraduate (residency) program for Radiation Oncology. The Department of Radiation Oncology is committed to excellence in care, and wishes to further develop academic/research strength, working closely with Medical Physics, Medical Oncology, Surgical Oncology, Epidemiology and other areas within and outside of CCMB. The Manitoba Institute of Cell Biology is located within CCMB, and provides an excellent opportunity for collaborative research especially for this Radiation Oncology position.

Preference will be given to applicants who are certified in Radiation Oncology by the Royal College of Physicians of Canada (FRCPC) or equivalent qualification with strong research background and, by current university academic rank. Preference will be given to Canadian citizens or landed immigrants. However, all qualified applicants who have research interest and background are encouraged to apply. The successful applicant must be eligible for licensure with the College of Physicians and Surgeons of Manitoba and fluent in written and spoken English. Salary will be commensurate with experience and qualifications.

Interested candidates are encouraged to submit a letter of interest, up-to-date curriculum vitae, and three letters of reference to:

Human Resources Services
CancerCare Manitoba
4009-675 McDermot Avenue
Winnipeg, Manitoba, Canada R3E 0V9
