2023 Virtual Patient and Family Conference

Patients and families living with cancer often have many decisions to make and may struggle to navigate the cancer care system. Up-to-date information can help with understanding cancer and treatment, as well as making decisions about cancer care.

The Hope and Healing Program of CancerCare Manitoba will be hosting its second conference for patients and families who are living with cancer.

This conference will be virtual, and registration is free. We are grateful for the generous funding support of our CancerCare Manitoba Foundation.

Friday, November 3 -

Conference Opening and Keynote Speaker (5:30 p.m. - 8:00 p.m.)

"Tapping into Your Inner Strength" - Building Mind and Body Resiliency

Dr. Rob Rutledge is a Radiation Oncologist in Halifax, Nova Scotia, specializing in breast, prostate and pediatric cancers, and an Associate Professor in the Faculty of Medicine at Dalhousie University. Dr. Rutledge has a strong interest in the mind-body connection and the incredible abilities of cancer survivors.

Saturday, November 4 -

Education Program (8:00 a.m. - 3:30 p.m.)

An all-day education program that offers an opportunity to learn, connect and share.

- Experts will present information on a range of topics such as what is cancer, navigating the system, personalized medicine, life after cancer treatment, exercise, nutrition, communication, spirituality and much more.
- A patient panel will share their experiences with cancer.
- A Virtual Exhibit with helpful resources and support program information.

Join for one or both days and attend a few or all of the sessions.

To register visit our CancerCare Manitoba website: www.cancercare.mb.ca/pfc or call 204-787-2970 or toll-free at 1-866-561-1026

POPULAR PICKS

Your Brain After Chemo

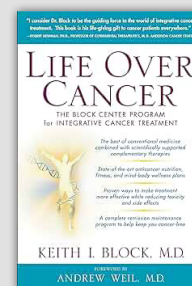

by Dan Silverman and Idelle Davidson

The authors explain how 'chemo brain' (also known as brain fog) is a side effect of cancer. They offer a nine-step program and skills which can help re-energizing the brain.

Life Over Cancer

by Keith Block, MD

The author offers a research-based plan which combines body and mind practices to help people meet the demands of treatment and recovery.
