MANITOBA

HEMATOLOGIST

Complex Hematological Malignancies/Blood and Marrow Transplantation (BMT)

Permanent Full-time

The Department of Medical Oncology and Hematology, CancerCare Manitoba (CCMB), in conjunction with Shared Health Manitoba and the Section of Hematology/Oncology, Department of Internal Medicine, Rady College of Medicine, Max Rady Faculty of Health Sciences, University of Manitoba (U of M), Winnipeg, are seeking a Clinical Hematologist who would have a main focus on complex hematological malignancies as stem cell transplantation and cellular therapy.

The Department of Medical Oncology and Hematology (DMOH), CCMB, and Section of Hematology/Oncology, consists of 40 faculty members based at the two CCMB sites that are U of M-affiliated teaching hospitals in Winnipeg. The Manitoba BMT Program is a FACT-accredited comprehensive service that includes an ASHI-accredited HLA Laboratory, Cellular Therapy Laboratory and combined adult and pediatric BMT services that are responsible for cellular therapeutics for the province. There is integration of the acute leukemia service with BMT; moreover, this service provides treatment for patients with other complex hematological disorders on a dedicated in-patient unit and out-patient clinic. Together, this allows the unique ability to manage the majority of complex hematologic malignancies within one multidisciplinary team. The group is active in translational, clinical and outcomes/registry research and is looking for a new team member to participate in provision of patient care on the inpatient and outpatient acute leukemia/BMT service and teaching of all levels of trainees. There is opportunity for collaborative research with CCMB's Research Institute for Oncology and Hematology (RIOH).

Qualifications: This academic position includes expectation of independent/collaborative research and teaching in the programs of CCMB and the U of M, as well as excellence in patient care. Candidates must have specialty qualifications in Internal Medicine and Hematology in the country of current practice and must be eligible for registration with the College of Physicians and Surgeons of Manitoba. Certification in Hematology by the Royal College of Physicians and Surgeons of Canada is preferred. Additional training in allogeneic stem cell transplantation is required. Income and rank will be commensurate with experience and qualifications. Competitive remuneration and excellent benefit packages are offered. CancerCare Manitoba, Shared Health Manitoba, and the Rady College of Medicine, encourage applications from qualified women and men, including visible minorities, Aboriginal peoples, and persons with disabilities. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

A CV and a brief outline of specific interests and career goals should be sent to:

Human Resources
Cancer Care Manitoba
4009-675 McDermot Avenue
Winnipeg, Manitoba R3E 0V9
Telephone: (204) 787-2809 Fax: (204) 786-0181
E-mail: jobs@cancercare.mb.ca

Closing Date: Applications will be accepted until position is filled; however, early application is advised.
