TOTAL	1270	2061	1349	2065	1305	2065

358 of the 2065 women screened at mobile sites in the region in 2013 were 70 years of age or over

RHA Screening Participation Rates

(BreastCheck's goal is to screen 70% of the population of women age 50-69 every 2 years.)

- Screening rates for women 50-69 years of age

It takes the effort of the entire community to make mobile screening a success. Here are some of the regional highlights for 2013:

- 56% of women 50 - 69 years of age in the Parkland RHA were screened at BreastCheck between November 2011 and November 2013.
 - Provincial rate = 53% (Jan/2010 - Dec/2011)
- Compared to 2011:
 - Regional breast screening rates decreased by 4% (60% in 2011 to 56% in 2013)
 - The population of women age 50 to 69 increased by 74 women (4976 in 2011 to 5050 in 2013)
 - BreastCheck screened 125 fewer women age 50 to 69 (2971 in 2011 to 2846 in 2013)
- BreastCheck encourages community organized group trips to help local women get to the closest screening site. In 2013 the following communities participated:
 - Crane River
 - Skownan
 - Ebb & Flow
