

# How to Return a ColonCheck Fecal Occult Blood Test (FOBT)

## How do I know if the FOBT returned to the nursing station or health centre is a ColonCheck test?

ColonCheck uses the same FOBT that is stocked in many nursing stations and health centres. The ColonCheck test comes with a yellow response form, and return envelopes that are postage paid and addressed to Cadham Provincial Laboratory. If the test is returned to the nursing station or health centre without the ColonCheck forms and return envelopes, it is important to confirm if the test was from ColonCheck.

Please call ColonCheck at (204) 788-8635, or toll free at 1-866-744-8961. We will check our database to see if the individual was sent the test from ColonCheck.

## Why is it important to know if the FOBT was from ColonCheck?

It is important so the test can be returned and analyzed at Cadham Provincial Laboratory. When ColonCheck receives the results of the test we are able to:

- Evaluate effectiveness.
- Send results letters to individual and the health care provider.
- Invite the individual again in 2 years so they can stay up to date with colon cancer screening.
- Coordinate colonoscopy for individuals with abnormal results in a timely manner.

## What should I do if a patient returns a completed ColonCheck test to the nursing station or health centre?

Do NOT analyze it. Instead, please ensure the individual's information and sample dates are written on the test card, and send the test to Cadham Provincial Laboratory as soon as possible. If it is not analyzed in a timely manner, the test will have to be repeated. If there is no return envelope, place in another envelope and address it to:
